It's not a SAL week this week but it is Friday - so here is a pattern I hope you will enjoy!

- The "feathered" central lines are stitched as follows:
• First do a backstitched line using DMC 820 where indicated by the pattern
• Then do straight stitches using 798 - the straight stitches at the point of each line will create an eyelet (worked from left to right or right to left) - that's supposed to happen.
- The corner lines are done using DMC 820 in backstitch.
- The fans at the top of the corner lines are done using a straight stitch working either right to left or left to right all the way round and will create another eyelet
