Beads:

MHG-2010 Mill Hill Glass Beads-Ice (76 beads)

This pattern was inspired by the Mucha princess patterns Pinky the Pink has made, this one uses the colours of Cinderella which you can find here: <u>http://tinyurl.com/y76rpnh6</u> (if it hasn't sold out yet as it's a limited edition pattern). Pinky's etsy shop can be found here: <u>https://www.etsy.com/shop/pinkythepink</u> with more princesses and much, much more!

- The bottom part of the pattern with the black lines is so you can see the backstitch lines in the pattern more easily I left the blue border in place to assist with placement.
- All the diagonal stitches are done with straight stitch so from one point to another with no stops on the way. All of the other lines are backstitch.
- When stitching the beads to the embroidery use the same colour thread as the background you are stitching on, so light grey blue for the light grey blue areas and grey blue for the grey blue areas. Attach the beads with a cross stitch when in the middle of a stitch or with a + when it's at a junction. When the bead is covering a cross stitch completely you can skip the cross stitch under the bead if you choose.

If you prefer you can of course always go with a completely different pallet than the one given! Make it yours if you like, I'm all for it :) Please do leave a message on my blog, <u>http://magicalquilts.blogspot.com/</u>, if you make this as I'd love to see the results!

This pattern was given for your own personal use on <u>http://magicalquilts.blogspot.com/</u>. You may not sell this pattern, nor may you offer kits with this pattern. If you wish to sell the embroideries made with my patterns please contact me first :)

Please do not post this pattern to other sites but refer back to the blog post. This includes sites such as Pinterest and Facebook! You may of course share your finished results where you like.
